For the Face, Neck and Body

Your Venus Freeze Experience

No downtime, no pain and no discomfort

Experience Painless Treatments

Why sacrifice comfort for results when you don't have to. Venus Freeze delivers a painless treatment with clearly visible results.

Experience Safety

Your Venus Freeze treatment is risk-free and good for all skin types and colors.

Experience Convenience

With no downtime, your Venus Freeze treatment allows you to resume daily activities immediately after treatment.

Experience Clearly Visible Results

With our patented (MP)² technology, you often can see results after the first treatment. Long term results can be achieved in as few as 6-8 treatments.

Experience Venus Freeze

The only technology that increases collagen synthesis via 2 separate mechanisms, resulting in a dramatic improvement in the skin condition.

Venus Freeze is for Everyone

Read why patients love it

Barbara – Venus Freeze Patient

"Venus Freeze happens to be one of my favorite things in the world. The results are unbelievable; every time I have another session of Venus Freeze I am astounded at how fast the results come. I walk out of the office and basically look in the mirror and say, "Wow, that's looking a whole lot better!" because my face seems tighter, rosier, luscious and glowing. That is just a beautiful thing for any woman to experience."

Nicole - Venus Freeze Patient

"I didn't actually know what to expect from my first treatment. It was really warm, it kind of felt like a massage. I found it to be quite relaxing and I didn't feel any pain. It was just a very warm and relaxing sensation. Would I do it again? 100% as I found it to be quite enjoyable."

Rita – Venus Freeze Patient

"The first time I was in to try the Venus Freeze I must say I was amazed; there was no pain whatsoever. I loved it. I know in the past with other treatments there was a pinching sensation. With this one it was just warm to the point that I was so relaxed that I would fall asleep. I would recommend it to other people. At least try it, it's amazing."

Frequently Asked Questions

The naked truth about Venus Freeze

What is Venus Freeze?

Venus Freeze is a device used to treat wrinkles, rhytides, tighten skin, reduce cellulite and circumferential fat. Using (MP)² technology, this device delivers multi-polar radiofrequency and Pulsed Magnetic Fields to the skin to produce a dense and uniform heat matrix. This causes collagen synthesis and contraction, fibroblast proliferation, neo-vascularity and lipolysis.

What areas of the body can be treated?

The face, neck and entire body can be treated with Venus Freeze.

What kind of results will I get?

Tighter skin, softening of wrinkles, plumper, fuller and more youthful appearance, reduced cellulite and a more contoured silhouette.

How safe are the treatments?

Radiofrequency and Magnetic Pulses have been used in medicine for many years and are proven, safe and effective technologies. Your treatment provider will review your medical history and your aesthetic goals to see if Venus Freeze is the right treatment for you.

How many treatments do I need?

The number of treatments required will vary patient to patient, but typically, 6 treatments for the face and 6-8 for the neck and body.

Is there any downtime? Can I do a treatment at lunch and return to work right away?

Absolutely! A treatment to one area takes less than 30 minutes.
